

05 OCT 06

Ms Struck,

I hope this letter finds you, not sure if this address is ~~still~~ your address or the package store you sent them from. I am hoping it is the first option.

The Marines were ecstatic to receive your packages and everything was handed out within 2 minutes. I ensured that those that have not received anything got first choice. We would like to send you a heartfelt thanks for your time and gratitude. It is a great sense of pride for us to receive and know that people like you are still supporting us and care about those a half a world away. It is with great pride that we serve and protect our country to defend from the terrorists that would bring harm to Americans. You too are helping our cause by bringing a touch off the U.S. to our little slice of the desert. Thank you for your patriotism and support. We look forward to hearing back from you, even if it just a note. God bless you for your support and may he bless your life for the sacrifice you made to support complete strangers.

Sincerely,

Capt USMC

P.S. Sorry for the Sox poor year, hopefully the Patriots will make up for it.
